

POWERED BY:
ACTINOS®

FIG. A - Increase Nitric Oxide by 950%*

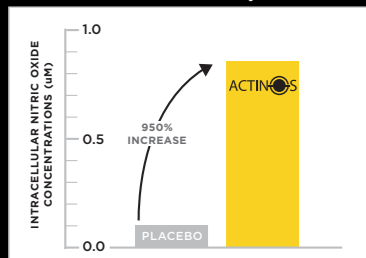

Figure A demonstrates how ACTINOS, the peptide that amplifies NOS enzymes, increases nitric oxide production in human endothelial cells by up to 950%.*

FIG. B - Reduce Belly Fat by 4.30%*

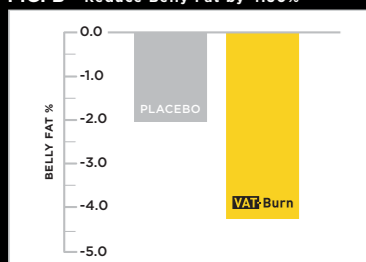

Figure B shows how subjects taking VAT-Burn, the peptide fraction that breaks down fat in humans, reduced trunk fat by 4.30%, as opposed to the calorie restricted specific control group. The study further demonstrated an overall body fat loss of 5.08%.* (16-week human clinical trial)

MRI'S REVOLUTIONARY NEW WHEY!

The Physique-Altering Power of Peptide "Multi-Fractionation"

Pro•NOS® is the biggest breakthrough in protein supplementation in over 20 years. It gives you the power to gain muscle and strip off fat faster than ever before. Without added ingredients. Just Protein. Here's how:

WHAT MAKES Pro•NOS DIFFERENT?

The stunning new technology is known as peptide "multi-fractionation." Unlike today's whey proteins that use peptide chains in their "randomly occurring" lengths, MRI has isolated the specific "interval" (length) within the peptide chains that holds all the concentrated power to change your body composition! You get two powerful physique-altering chain-length specific peptides in new Pro•NOS: ACTINOS™ increases nitric oxide by 950%. VAT-Burn™ strips off belly fat by 4.30%.*

BUILD MUSCLE AND STRIP OFF FAT - AT THE SAME TIME - WITH FRACTIONATED WHEY!

Chest. Arms. Abs. With Pro•NOS, you get it all. The patent-pending NO-generating whey peptide fraction (ACTINOS™) amplifies nitric oxide levels by up to 950%. Without arginine or "added ingredients." Just fractionated whey isolate. Your muscles feel bigger and thicker within days. At the same time, the whey peptide fraction that breaks down fat (VAT-Burn™) begins chiseling and sculpting your abs like never before.*

Pro•NOS IS IDEAL TO TAKE WITH ALL NO-GENERATORS!

Pro•NOS is designed to work synergistically with all nitric oxide products. You see, NO generators provide your body with arginine - the building block of NO. But it's the NOS enzymes that convert the arginine into nitric oxide. Pro•NOS makes sure you've got enough NOS enzymes. Finally, NOS is no longer the rate-limiting factor in NO production!*

Pro•NOS is 42 grams of the highest quality cross-flow micro-filtered whey isolates and concentrates! And it tastes great!

*Use in conjunction with your exercise routine.

PREPARATION: Mix 1 serving (2 scoops) of Pro•NOS with 12 fl oz. of cold water or skim milk, mix well. Consume immediately.

DIRECTIONS: Take 2 servings of Pro•NOS daily.

Note: On training days, take one of your two daily servings within one hour after your workout.
